This Semester's Projects

1. EMBA Service (with Siemens Energy)
2. Context Map for Corporate Data (with CPU 24x7)
3. Synthetic file system (with GRAU DATA)
4. ...

Course Management

- Student teams
 - See **Project Teams** tab on **Course Organization** doc
- Room allocations
 - See **Project Teams** tab on **Course Organization** doc

The AMOS Project License

- For source code, we use the MIT license
 - See <https://opensource.org/licenses/MIT>
- For other data, we use the CC BY 4.0 license
 - See <https://creativecommons.org/licenses/by/4.0/>

Open Source Governance

- Do not add copyleft-licensed libraries to your project
 - May make later desired license change difficult, including proprietary use
 - Check with teaching team whether library is OK
- Rules of thumb on license choice
 - **OK: Permissive licenses (BSD, Apache)**
 - **May be OK: Weakly protective (a.k.a. “weak copyleft”)**
 - **Usually not OK: Strongly protective (a.k.a. “reciprocal” or “copyleft”)**
 - **Never OK: Non-software licenses, no license**
- Professionals (i.e. companies) use code scanners to check

Thank you! Questions?
