Agenda

New capabilities

- Team meeting

Deliverables

- Bill of materials
- Software architecture

Capabilities

Team Meeting

Learn to follow the team meeting process, see slide deck on Team Meeting

Typical points of failure

- The release manager failed to do their job
- The product owner didn't prepare for sprint planning

Deliverables

Software Bill of Materials (SBOM)

For each dependency, provide the following information

Field	Name	Example
1	Context	com.google.code.gson
2	Name	gson
3	Version	2.3.1
4	License	Apache-2.0
5	Comment (optional)	

Software Architecture

Provide a description of the planned architecture including (at a minimum)

1. The runtime architecture
2. The code (static) architecture
3. The tech stack you are building on

Thank you! Any questions?
